## Professional Summary

---

Detail-oriented and creative Frontend Developer with over 4 years of experience building user-focused, responsive web applications using modern technologies like React, Next.js, TailwindCSS, and ASP.NET Core. A strong collaborator and mentor, with a proven track record of leading project teams, improving user experience, and delivering clean, maintainable code. Passionate about user interface design, scalable frontend architecture, and building tools that impact real users.

## Technical skills

---

|                     |  |
|---------------------|--|
| Languages           | JavaScript, TypeScript, HTML, CSS/SASS, C#.  |
| Framework/Libraries | Reactjs, Nextjs, Tailwindcss, RAZOR, Asp dotnet core.  |
| Tools/Platform      | Git, Vercel, RapidAPI, Figma, Visual Studio Code.  |
| Practices           | Responsive Design, SEO Optimization, Version Control, REST API Integration, Component Architecture |

## Education

---

Afe Babalola University, Ado-Ekiti, Nigeria. Oct. 2021 – Oct. 2025  
*Bachelor of Engineering, Mechatronics Engineering*

## Experience

---

## **Carrs – Peer-to-Peer Car Rental Platform**

May 2025

*Lead Developer*

- Spearheaded the architecture and development of a peer-to-peer car rental platform similar to Airbnb, where users can list and rent cars across states in Nigeria.
- Built modular, reusable React/Next.js components for listing, booking, reviews, payments, and vehicle detail pages.
- Integrated payment gateway (Flutterwave) and Supabase for user authentication, database management, and trip history.
- Designed a responsive dashboard with admin and user views, car upload forms, booking calendar, and trip tracking interface.
- Led a small team of frontend developers and collaborated with designers, backend engineers, and stakeholders to meet weekly milestones.
- Prioritized performance optimization, mobile responsiveness, and real-time feedback systems (e.g., for booking confirmations and alerts).

## **Trietix | Trietix - Event management made**

Mar. 2023

*Chief Marketing Officer (CMO)*

- Collaborated with the IT department to enhance customer experience on the platform.
- Developed and maintained the company's brand identity.
- Tested sites in various browsers and devices to ensure cross-browser compatibility and mobile responsiveness.
- Worked together with other developers and user experience designers to deliver thoughtful and consistent user experiences across the platform.

## **ASVA ABUAD | ASVA**

Sept. 2024 - June 2025

*Head of software*

- Mentoring and grooming young developers.
- Developed and maintained websites used during all ASVA events
- Collaborating with the UI team and ML team to build and develop various user interfaces for different products (e.g ASVA intelligence).

**Tranarc** | [Home - Tranarc](#)

Feb. 2024 - Sept. 2024

*Intern*

- Collaborated with other developers to develop functional User Interfaces for the web.
- Led a team of developers to come up with a solution to a problem statement stated by the supervisor.
- Worked with C#, Asp dotnet and javascript to build some functional projects and awesome User Interfaces (UI) for users.

## **Projects**

---

### **Carrs Transit**

Next.js, TailwindCSS, TypeScript, Supabase, PaystackAPI, ShadCN, Lucide

- Architected and built a route-based transportation booking platform for searching routes, selecting seats, and completing secure bookings.
- Implemented real-time seat selection logic and booking validation to prevent double reservations.
- Integrated Paystack for secure payment processing and Supabase for transaction and booking management.
- Developed responsive dashboards and protected routes using Next.js and TypeScript.
- Live URL: <https://transit.carrs.company>

### **Cj Tutors**

Next.js, TailwindCSS, TypeScript, MongoDB, Stripe, ShadCN, Lucide

- Developed and optimized a tutoring platform enabling students to explore subjects, book sessions, and access learning resources seamlessly.
- Built responsive, mobile-first UI using Next.js and TypeScript with structured routing and reusable components.
- Implemented authentication flows and protected pages for student access and session management.
- Improved user experience with structured layouts, performance optimization, and clean UI architecture.
- Live URL: <https://cjtutors.com>

### **Iklass Africa – Subscription-Based Learning Platform**

Next.js, TailwindCSS, Mantine UI, ASP.NET Core

- Frontend lead for an educational platform offering video lessons and performance tracking using a custom video player.
- Built dynamic pages for subject modules, quizzes, dashboards, and admin content control.
- Designed intuitive UI/UX with Mantine and Tailwind, ensuring accessibility and responsive layout.
- Integrated with ASP.NET backend for real-time course updates, subscription control, and analytics tracking.
- Live URL: <https://iklass.africa>

### **KOTAB**

Next.js, TypeScript, TailwindCSS, Framer Motion

- Built a performant multi-section website using Next.js App Router with server-side rendering for SEO optimization.
- Designed and implemented responsive layouts using TailwindCSS, ensuring accessibility and compatibility across devices.

- Integrated Framer Motion to introduce subtle animations that enhance user engagement without overwhelming the experience.
- Structured content dynamically to allow for scalable updates to the team, events, and mission sections.
- Collaborated with the client to capture and reflect the brand's voice and values through design and layout.
- Live URL: <https://kotab-website.vercel.app>

## **Chimernext**

Next.js, TypeScript, TailwindCSS, Framer Motion, firebase

- Developed a product catalogue page that lists all available door knobs with individual product descriptions.
- Implemented a blog page for publishing company updates and industry-related content.
- Used Next.js App Router for optimized routing and performance.
- Applied Framer Motion to create smooth, modern animations that enhance user engagement.
- Designed the layout using TailwindCSS, ensuring a consistent and responsive experience across all devices.
- Live URL: <https://chimernext.vercel.app>

## **Soft Skills**

---

- Leadership & Mentoring
- Communication & Team Collaboration
- Critical Thinking & Debugging
- Adaptability & Learning Fast
- UI/UX Collaboration

## **Interests**

- 
- Building developer tools
  - Animations and transitions with Framer Motion
  - Performance optimization and code splitting
  - Building design systems and reusable UI libraries
